

GASOLINE DISPENSING FACILITIES

PHASE I and II

Course No. 340

This three day seminar presents a complete overview of the gasoline vapor recovery program. The history, certification, and testing requirements are presented. Executive orders, state regulations including revisions to the equipment defects list, and permit requirements are discussed. The operational theory, the equipment certified, enhanced vapor recovery, and installation & compliance inspections are all discussed. Participants will also conduct field inspections at a balance and a bootless assist station.

June 15, 16, and 17, 2004

8:30 – 4:30

Ventura County APCD

669 County Square Drive

Ventura, CA

Class includes two afternoon field visits. Field visits and exam are mandatory to obtain a certificate of completion. **Please bring safety gear appropriate for a gas station.** An enrollment fee may apply.
